VIVO S8 - S8M - S4 DESCRIPTION

With the industry's most powerful quad-core processor, the new VIVO S8, S8M and S4 are completing the VIVO piano stage range together with the S10 and S10L.

All the 5 VIVO stage are sharing:

- 3.2 GB memory
- unlimited polyphony at 24-bit and 48 KHz, together with 12 individual DSP for sound effects
- Independent, programmable outputs
- Bluetooth Audio and MIDI

VIVO S8

The VIVO S8 with a 88 notes graded hammer action keyboard with ivory feel offers the most performing stage piano in the market at less than 18 Kg.

VIVO S8M

The new VIVO S8M, with a 88 notes hammer action keyboard, is equipped with a 70W (35W x 2) speaker system optimized by a specific DSP control.

The VIVO S8 M, with its onboard speaker system, is weighting just less than 16 Kg and offers musicians the option of amplification for live performance in small venues, a stage monitoring system built inside and no-hassle amplification for the use of practicing at home, backstage, or in hotel rooms.

VIVO S4

Less than 12 Kg with a 73 notes hammer action keyboard makes the new VIVO S4 the most performing/compact/light stage piano in the market since ever.
